Fig. Handred Shoe Operatives Go Out.

Concond, N. H., Dec. 10. Al. the operatives in the shoe factory of Ladeaster & Co. Pittsfield, were ordered one by the Executive Board of the local assembly of the Knights of Labor his morning. The troub e was occasioned through a disagred ment with the female stitchers to prices to be pij per case. Before work was begund on the fast run a satisfactory rate was made and the gils expected the same for the passent run, but Lancaster & Co. contemplited making a reluction equivalent to eight or nine cents per case, to rectify an error made by them when they fixed the price before. The stitchers denurre to the proposed cut down and as the great est number of them belong to the Knights of Lator that organization took charge of the matter and indenvored to secure all adjustment of the contraversy, but failed. Al. the help went to work this morning as usual, but in a short time thal entire force left the shop by direction of the Knights of Eator than the contraversy. But failed, Knights and the doors were closed. The tital number of hands out of employment is 500, nearly 100 of them being stighters. There ans been some slight difficulty with the critiers but it is believed that it can be easily actiled. The strike creates much exciterated of a quiet chiracter in town and the hope universalty prevails that the troubly will be speedily terminated. Both sides a firm too gift and there is little prospect of an early adjustment unless concessions are made. This is the most formidable labor controversy in the history of the town.
